Professional Summary

Software Developer with hands-on experience in building REST APIs using Node.js and Express. Familiar with JWT authentication and working with MongoDB and MySQL

Technical Skill

- **Languages:** JavaScript, Typescript, C++
- **Backend:** Node, Express, REST API, JWT Authentication
- **Frontend:** React, HTML5, CSS3
- **Databases:** MongoDB, MySQL
- **Cloud Technologies:** Render, Vercel
- **Tools:** Git, GitHub, Postman, VS Code

Experience

Dynamic Pixel Multimedia Solution Ltd. Vasundhara, Ghaziabad October 2025 – Present

- Developed and maintained MERN-based applications used by real users.
- Built and integrated REST APIs and worked with MongoDB
- Improving performance through debugging and code optimization.
- Managing server setup, API integration, and deployment.

Education

Dr. A P J Abdul Kalam Technical University, Lucknow Sept 2021 - Aug 2025
B.Tech in Computer Science and Engineering

- **Coursework:** Operating Systems, Computer Networks, Database Management Systems, Data Structures and Algorithms

Wisdom Way Progressive Inter College, Lucknow March 2020 - March 2021
Intermediate (Class XII) | 72%

Projects

FileConvert SaaS

- Built a SaaS platform using Node.js and Express.
- Implemented JWT-based authentication for secure user access
- Added rate limiting and basic bot protection to prevent misuse

Skill-Scope – Role-Based Developer Assessment Platform

- Built a full-stack platform to assess developers via MCQs, coding tests, and project-based tasks.
- Designed secure REST APIs to manage multi-role access, test flow, and candidate responses.
- Connected React front-end to back-end APIs with dynamic routing and protected components.

Certifications and Achievements

- Solved **200 data structure and algorithm problems** on platforms such as LeetCode.
- Certified in **JavaScript (Intermediate)** by Hacker-Rank to master the core JS concepts and the ES6 + syntax.
- Certified in **Problem Solving (DSA)** by HackerRank for completing the challenges of the structured algorithm.
